# FROST ORIGINAL COPPER

THE MODERN TAKE ON A CLASSIC FINISH

## FROST: PURE DANISH DESIGN

Our vision and focus is to provide a "Complete Interior Line" of elements which evoke "Inspiration Through Design".

We provide a unique approach to solving age-old questions, as well as constantly seeking new ways to fill the ever-changing niches due to advances in technology and everyday lifestyles.

Our line has passion and commitment to improving the everyday life of its audience through our signature way of creating function with style.

Our Danish Design Culture is conveyed through our own unique style and approach which blends function with design and approaches solutions with creativity.

FROST wholly embraces the concept that function is nothing without truth in form.

At FROST, we strive for excellence in creating innovative concepts, developing pure design which is executed via techniques that produce high quality "Interior Design Solutions"...

## BØNNELYCKE MDD

Bønnelycke mdd was established in 1988. Driven by an unsuppressable urge to work constructively and innovatively, Henrik Bønnelycke started his career with the design of lamps, furniture and interior decorating.

Quickly, he became known as an unconventional architect with no whims and fancies.

His ability to challenge and optimize the manufacturing process itself is to be found in Henrik's original professional background as a toolmaker.

"It could be fun" and "of course it can be done" - are phrases often used in his company.

This has resulted in a comprehensive portfolio of projects and designs - spectacle frame design, racing boats, lighting, furniture and buildings to name a few - several of them award winning and patented designs.

Bønnelycke mdd is truly a multi disciplinary design company with both national and international experience.

They are perfectionists with professional curiosity, and provide a wide variety of design disciplines encompassing architecture and interior design, furniture design and product design to communication assignments, graphic design and web design.

At Bønnelycke mdd they do not design for the sake of it.

They believe that design does not hold any values per se. To Bønnelycke, the value of a design emerges when a product has relevance and when it is purchased, used and appreciated - this is why they design.

In Bønnelycke's own words:

"We are committed to providing our clients with what they pay for - which is their own design !"

## BUSK + HERTZOG

"Behind every product lies a story. Sometimes it's obvious and can be read in the visual appearance of the product, and sometimes it is subtle and to be found in the detail. But the story is always there"

Flemming Busk and Stephan Hertzog established their successful studio in Denmark in 2000.

Today, their recognition goes far beyond Scandinavian borders.

Their studio has won more than 35 of the most prestigious international design awards, including Red Dot Awards, IF Awards and Good Design Awards, making them the most award-winning Danish designers of their generation.

Several of their designs are part of permanent exhibitions at design museums around the world. busk+hertzog's design characteristics are sculptural, clean lines and a simple expression with minimal embellishment. Any decoration usually serves a function or is integral to the furniture. They often get their inspiration from shapes and lines found in nature.

When Flemming Busk and Stephan Hertzog established their design studio, it was with a very clear vision of being not only innovative and professional but also with the aim of launching a new generation of Danish Designers.

Their successful revitalizing of a Danish Design industry that was mainly based on designs from the 1950's was recognized in 2008 by the Danish furniture industry who awarded them with their oldest and finest distinction – The Industry's Furniture Award. This was previously given to, among others, Arne Jacobsen, Poul Kjørholm, Verner Panton and Jørn Utzon.

Their products have been used in some of the world's most prestigious building projects - perhaps not surprising given that Stephan B. Hertzog and Flemming Busk always have had an emphasis on their designs being global.
