

LIVING

The Nordic Feeling is quite apparent in the new FROST Living Accessories collection of Danish designed decorative and functional products.

Individual or together all products are perfect choices as stylish additions to your home. Clean and elegant designs you will appreciate in the living room, the dining room, kitchen, bathroom or any other room.

The FROST Living Accessories are made from stainless steel and available in the six FROST finishes: Universal Brushed, Perfect Polished, Original Copper, Modern Gold, Classic Black and Pure White.

The different finishes make it easy to blend the designs into an existing interior and brighten it up with spots of color and personality.

Let any of the designs from FROST Living Accessories complete your interior ...

Please enjoy!

CAN CANDLES FORM GRAPHICS?

Yes, they can ... at least with these candleholders.

The candleholders are made for two different types of candles: Ø22 mm candles and Ø40 mm tealight candles. Additionally, each holder (except for the chamberstick) comes in two versions: for one and for two candles. They can be turned upside down, overlapping one atop the other, to form the graphic pattern you prefer ... if any.

The candleholders are manufactured from stainless steel and are available in six finishes: Universal Brushed, Perfect Polished, Original Copper, Modern Gold, Classic Black and Pure White. The different finishes makes it easy to blend the candleholders into an existing interior and brighten it up with spots of color and personality.

The candleholders are designed by Bønnelycke mdd, who has managed to bring together aesthetics and function into one, and created quality products that will grace any room. The candleholders have an elegant and sculptured appearance and are unique in their simplicity.

The candleholders celebrate the individual ... the FROST purpose and statement.

PURE DANISH DESIGN

FROST: A WORK IN PROGRESS

Our vision and focus is to provide a broad platform of architectural elements that both inspire and provide comprehensive design and application solutions. Our Danish culture of progressive contemporary design is conveyed through our products in a manner that blends design with function, creativity with solutions. FROST embraces the concept that Form is nothing without Function. Emphasis has also been placed on material, quality, and service. FROST has been the recipient of International Design Awards and we have realized that our company is a Work In Progress. This we attribute to the ongoing dialogue with architects worldwide that have been embraced as part of our company culture. FROST is more than a company: it is a vision, and a quest for excellence.
