

TURNSTYLE  
DESIGNS

MADE IN ENGLAND

LUXURY FURNITURE HARDWARE

Luxury hardware, designed and manufactured in the heart of North Devon, England.

Proud supporters of

This brochure has been printed on 100% recycled paper

# SUSTAINABILITY

Sustainability is and always has been a part of the Turnstyle DNA. From the materials and processes we use to how we deal with waste and reducing our carbon footprint. We strive to continually improve how we operate as a manufacturer and a business.

*“All the evidence for climate damage is too powerful and present to deny, so we have two choices, do nothing and bury our heads in the sand or act and act now. Businesses, regardless of size all have a responsibility to push sustainability to the front of their agenda, economic and ecological sustainability are intrinsically linked, you cannot be one without doing the other.”*

*Steve Roberts, MD Turnstyle Designs*

Based in the heart of the UNESCO North Devon Biosphere we are fortunate enough to live in one of the worlds most beautiful places, a clear reminder to us how important it is for all of us to live and work responsibly.

## Manufacturing

We manufacture everything in the UK keeping our transport impact as low as possible. We only use vegetable tanned Italian bridal leather, sourced from European farms.

Our trademark Amalfine™ material is also made up of a composite blend, which includes by-products such as marble dust. This is currently mixed with 20% petro chemical resins, we are working to develop and use a Bio resin in the near future. Best of all we make our handles to last, strongly believing that if you buy well, there is only a need to buy once.

All new product design considers materials and energy use as a primary driver. We are introducing innovative green materials and trying to move away from damaging processes and materials such as hexavalent chrome plating.

## Factory

We operate from a highly insulated, energy efficient factory and offices, using our own solar PV derived energy to run air source heating in the offices, direct infrared in the factory and lit with low energy LED throughout. We recycle everything where possible, including canteen waste, and have a zero to landfill policy.

## Circular Economy

We hate waste and we would always rather repair and reuse than replace, which is why we have a process set up to assess any damage and either send out a repair kit, or have the product returned to the factory for repair. If it is beyond commercial repair, we will break it down and recycle it. We are also setting up a new system to take back our old, unwanted handles, to either repair and re-sell (proceeds going to charity), or break down into components for

## Packaging

All our cardboard is made from recycled paper, printed with water based inks. We have removed 99% of single use plastics from our packaging and replaced them with fast and completely biodegradable alternatives. We have a zero to landfill waste policy with virtually everything we use being recycled.

## Transportation

We are working hard with all our staff to cut down air-travel, and endeavour to replace as many face to face meetings as we can with online sales and training sessions. Company cars are now fully electric, with E charges at the factory.

Our 'Bike to Work' incentive scheme, pays staff to walk or bike to work offers team members the opportunity to reduce their carbon emissions, while keeping fit.

## Carbon offsetting

We know that this is not the answer and only used as a temporary contribution to our carbon footprint, never the less we measure every part of our carbon output and then treble the cost, to donate to some great carbon sequestration schemes.

## FOR THE PLANET.

### Supporting the fight

As proud members of '1% for the planet', we donate 1.5% our annual turnover to environmental causes and organisations and a further 0.5% to mental health charities.

See our website for full details and links to the charities we support.

FINISHES

Living finishes

Living finishes are designed to change with time and use. Brass components are polished and then treated in a number of different ways to change the surface, either by accelerated ageing as with the Vintage and Burnished finishes or brushing as with our Satin Brass.

All living finishes are finished with a highly durable wax, which will wear

Brass Living

- 

**Polished Brass (PU)**

Solid brass, expertly polished to a high sheen, pure and simple with nothing added to allow the natural aging process or keep it polished with any good brass cleaning products. **LV-EXT**
- 

**Vintage Patina (VP)**

Hand polished brass base, matt treatment before patinated to a rich dark brown, lightly distressed for highlights. Finished with a durable wax coating. **LV-EXT**
- 

**Fine Antique Brass (FA)**

Hand polished brass, lightly patinated and brushed to highlight and contrast. Finished with a durable wax coating. **LV-EXT**
- 

**Satin Brass (TW)**

Hand polished , then wire brushed for a golden finish. Wax coated. This finish will darken with age unless kept polished. **LV-INT**
- 

**Vintage Nickel (VN)**

Nickel plated brass, skilfully patinated by our team of craftsmen, followed by hand distressing and wax polishing. **LV-INT**

Brass Plated

- 

**Bright Chrome (BC)**

Sometimes referred to as Polished Chrome, solid brass base, highly polished, nickel base coat with a durable chrome top coat. Easy to maintain and our most durable finish. **PL-EXT**
- 

**Polished Nickel (PN)**

Solid brass base, finished with our beautifully subtle nickel plating, silver with hints of yellow. Superb in contemporary or traditional interiors. Clean with any quality nickel polish. **PL-INT**
- 

**Satin Nickel (SN)**

Still our most popular plated finish, solid brass with a fantastic, flat satin nickel plating, no brushwork. A superbly versatile finish that will stand the test of time. **PL-INT**
- 

**Matt Black Chrome (CB)**

Our latest addition to our plated finishes, a four step process developed by our highly skilled team of finishers, this is a completely matt black plated finish. Highly durable and practical for interior or exterior use. **PL-EXT**

Hammered Living

- 

**Polished Brass (PU)**

Solid brass, expertly polished, then hammered and polished a second time to a high sheen, with subtle light refraction. Either allow the natural aging process or keep it polished with any good brass cleaning products. **LV-EXT**
- 

**Burnished Brass (BH)**

For our hammered finishes we use a more gentle technique to patinate, each piece is hand burnished to break the surface before being patinated, then subtly distressed, hand polished and waxed to give a luxurious antique finish, highlighting every hammer blow perfectly. **LV- EXT**
- 

**Burnished Nickel (NH)**

Polished solid brass, individually hammered, then nickel plated before being hand burnished, patinated and distressed to be finished with a wax finish. Eight pairs of hands before assembly, QA and packing. **LV-INT**

Hammered Plated

- 

**Bright Chrome (BC)**

Solid brass hand polished then individually hammered, before plated with a crisp and bright chrome plating. Highly reflective hammer blow texture that is easy to maintain and our most durable finish. **PL-EXT**
- 

**Polished Nickel (PN)**

As with Chrome, solid brass , polished, hammered and re polished before being finished with our beautifully subtle nickel plating. Superb in contemporary or traditional interiors. Clean with any quality nickel polish. **PL- INT**
- 

**Satin Nickel (SN)**

Solid brass, polished, individually hammered a thousand times, and finished with a fantastic, flat satin nickel plating, no brushwork. A superbly versatile finish that will stand the test of time. **PL-INT**

according to use, we do not use Lacquer, to avoid uneven blotchy wear.

Brass living finishes can be used outdoors, but will be subject to the specific atmosphere of the location and change accordingly.

FINISHES

Amalfine™

Warm to the touch, tactile and incredibly detailed, our Amalfine™ finishes are also extremely durable and maintenance free. Each design and pattern translates differently according to the finish, see our website to view all designs in all finishes. Please note Amalfine™ designs are recommended for interior use only.

Amalfine™

- 

**Cocoa (CO)**

Dyed marble composite, plain designs reminiscent of mid century Bakelite.
- 

**Black Bronze (BB)**

Dyed marble mixed with real bronze, highly polished to bring out the bronze highlights, a rich black that will go well in any interior.
- 

**Silver Bronze (SB)**

Heavily loaded cold cast bronze, highly polished and waxed to produce a rich dark golden finish.

Amalfine™

- 

**Alupewt (AP)**

A secret blend of composite metals, polished and dyed to bring out the highlights in the more detailed designs such as Shagreen.
- 

**Sand (SA)**

Only available with specific designs such as Shagreen, Labyrinth, Hickory and Bullet. Dyed marble, with a dark stain to produce a highly unique finish.
- 

**Bone (BN)**

Made to order only, and only applicable to non textured designs.

Leather

- 

**Tan (TA)**

Light, luxurious leather, edged with a soft, natural thread.
- 

**Chestnut (CN)**

A glorious, reddy, nutty brown, full of life and finished with a natural thread.
- 

**Chocolate (CT)**

A rich dark brown, our most popular colour, finished with a dark brown thread.
- 

**Slate (GC)**

A mid tone grey, growing in popularity, great with our silver plated finishes and edged with a silver grey thread.
- 

**Black (BL)**

A beautiful, subtle sheen, classic leather, finished with a black thread.
- 

**White (BW)**

White leather, white thread, white edging for a clean and contemporary look.

Woven Leather

- 

**Tobacco (TC)**

A reddish brown mix of woven strands to produce our best selling classic.
- 

**Flint Grey (FG)**

A beautiful mid grey with a subtle dark smoked undertone.
- 

**Whisky (WK)**

A light tan mix with dark edging.
- 

**Raven Black (RV)**

Like the bird, a beautiful reflective black sheen, that comes alive as light catches it.

Leather like all natural materials will change with age, according to the situation, exposure to sunlight and usage (or lack of). The more you use it, the better it looks, the oils from your hands feed the leather and create a unique patina. Leather handles should only be used internally. Please see our leather care instructions for maintenance and cleaning.

**Colour Variation**  
Vegetable tanning is an art rather than a science, please allow for slight variations in colour from batch to batch, this is all part of the charm of using such a beautiful and natural material.

# CUSTOM SOLUTIONS

## TAILOR MADE

Our Tailor Made service offers even more with complete custom options available to suit any interior.

Working with a myriad of materials, finishes and processes, our years of experience in design and production mean we are well equipped to solve most challenges thrown at us.

If you are not able to find something to suit your project in either of our catalogues or via the Modify process, we will happily discuss developing and manufacturing your custom vision from start to finish.

## MODIFY

We offer modification and customisation options for clients, by using our existing stock components. This is a cost-effective way to enable a client to have a unique, bespoke design by modifying material, grips or finish and thereby benefiting from both price and delivery times.

Our customers are used to being able to put their own handwriting on most products they buy, from cars to fashion and furniture, so why not architectural hardware? We offer a completely bespoke service where you can either take one of our existing designs and customise it by size, finish or even casting, or if you still can't find something that suits, work with us to create something completely unique for you.

Our Modify service allows customers to take an existing product and specify exact custom lengths for cabinet D handles and door pulls, free issue their own leather or even stitch options, chose a specific metal finish – plated or patinated or have their own Amalfine™ grip design cast and finished. This service uses stock parts to manufacture custom pieces which help speed up delivery and cut down costs.

## MADE TO MEASURE

We have a range of products available in custom lengths and these can be identified by our Made To Measure icon on the relevant products pages. As well as custom lengths we also have a range of Multi Grip options which is unique to Turnstyle Designs.

**What is a Multi Grip?** Multi Grip is a term we use here at Turnstyle Designs to describe our larger multiple grip sectioned pull handles. These can be used for larger or more frequently used doors such as entrance doors, to create a more substantial grip and statement. At present all our Recess Amalfine™, Recess Leather, Solid and Hammered Brass pull handles are available as part of our Multi Grip range. Our current Multi Grip centre size options are 800mm, 1200mm and 1600mm.

## BROWSE THE COLLECTIONS

Most of our products fit into a fully suited collection to complete any look.
